

Safer Together is TABCO's innovative campaign to transform the school climate and make Baltimore County classrooms amazing places for teaching and learning.

HOW WE GOT HERE:

This campaign began with an agreement between BCPS and the five unions to meet this school year.

THE GOAL:

- **Agree on new programs.**
- **Strengthen existing programs.**
- **Create a concrete plan for improving school climate.**

NOW:

TABCO is proposing a **comprehensive, integrated program** to be piloted in schools across Baltimore County, spanning elementary, middle, and high schools from diverse geographic areas.

This campaign is built on **research-backed tools and interventions**, including Positive Behavioral Interventions and Supports (PBIS), Social Emotional Learning (SEL), Teacher Coaching, and Student Mentoring.

It's about **consistency** and **fidelity**. These proposed tools will **only work when used cohesively** and consistently.
